Gardener David Rea of the Granite City Park District stands in the gardens at Wilson Park amid some of the flowers that will be offered in the annual flower giveaway.

Flower giveaway is Saturday

To everything, there is a season, and that includes flowers. Wilson Park's annual flower giveaway is the result of having to remove one kind of flower to make room for another; sort of an "out with 4the old, in with the new"

with the old, in with the new" solution.

The flowers to be distributed on Saturday are annuals planted in the park's gardens last spring. They must be removed to prepare for planting of tulips and other spring-flowering bulbs. Even spring-flowering bulbs. Even some varieties may be used as house plants and some will seed. If seeds are stored properly, they

may be used for planting next season.
Season. Season.

Because of unusual weather last spring and very dry periods this summer, cuttings from roses will not be given out, according to Bill Monical, grounds-keeper for the Grantie City Park District. Monical pointed out that no perennials will be given, but will be distributed in the spring.

People are reminded to bring their own containers. Park district personnel will be the only ones allowed to dig the flowers. No plants will be given away before the designated time.

Labor trouble again at ASF

Staff writer

More than 800 steelworkers who returned to American Steel Foundries in Granite City after settling a two-week labor dispute were confronted with another problem Monday — a picket line. While members of United Steelworkers of America Local 1063 settled a two-week long contract dispute with ASF late last week, more than 65 of their fellow workers were either striking or locked out of the plant Monday morning. Fifteen electricians, members of the International Brotherhood of the Contract with the company expired. Fifty-three members of International Association of Machinists and Aerospace Workers District 9 were on strike at American Steel Monday over non-economic issues, said IAMAW Business Representative Bob Soutier.

Look inside today's Journal for information about the "Shop "Til You Drop \$5,000 Holiday Shopping Spree." Details are on the semiannual voluntary subscription envelope.

To offset a portion of the semianual voluntary subscription envelope. The offset a portion in the Journal every week, the newspaper asks readers to make a voluntary subscription twice a year. The enclosed envelope makes it easy to send a subscription to the Journal and provide comments for improvements to the paper. The semial subscription to the Journal and provide comments for improvements to the paper sits about a sweepstakes in which one reader will win a \$5,000 shopping spree at a local mall. Those who send a voluntary contribution automatically will be entered in the sweepstakes. Also, to those readers who sent in an annual count expect another subscription, but return the envelope to be entered in the sweepstakes. All readers, regardless of whether they subscribe, will be entered in the sweepstakes just by returning the subscription envelope.

Below the equator, there is only one region in South America that experiences this annual spectacle. In the northern hemisphere, the areas are limited to eastern Asia. including central and northern Japan, and one small region in southwestern Europe, and a good portion of the United States.

In North America, the most brilliant color shows are in southeastern Canada and southeastern United States. Some grand performances occur each fall in the Great Smoky Mountains National Park, although Tennessee and North Carolina are considered southern states. The high elevation of the popular park provides the right conditions for great color. People south of that, though, enjoy fall color by looking at photographs or taking a trip up north.

Why does all this happen? We'll try to explain it as simply as possible. Leaves are green because they contain chlorophyll. It's contain chlorophyll. It's essential to the growth of most plants. Chlorophyll is constantly being manufactured by plants, while at the same time continually being broken down. Come fall, the plant doesn't manufacture the chlorophyll as fast, but the breakdown rate remains the same.

A stage will eventually be reached when little, if any chlorophyll is being manufactured, and what has been made is being destroyed. But the two yellow pigments usually present that are normally masked by the chlorophyll remain. Hence we have yellow leaves.

Some leaves, such as those on magnolias, do not turn yellow, but go directly from green to brown. The breakown of the chlorophyll doesn't start soon enough or

Some maples, oaks and many other plants turn a brilliant red in fall. This is caused by a third pigment in their leaves, which results in one way from the accumulation of sugars and tannins in the leaves. To turn red, a leaf needs two ingredients; bright light followed by coolnights, 45°F or below. Experts have proven that during these conditions, sugars and other materials are "trapped" in the leaves. The accumulation of them results in the manufacture of results in the manufacture of red anthocyanin.

The above explains why trees in the southern part of the country don't turn color. The climatic ingredients simply aren't there.

Weather can further influence color. If the fall has an abundance of cloudy days, warm evenings, and excessive rain, the color won't be as brilliant. With insufficient sunlight, the sugar production is greatly reduced. If the nights are warm, the sugar that is produced is transported to the trunk and roots, where it's not visible.

Autumn color is actually a very complex subject, much more than we've covered. It all depends on the type of plant. And, as you can see, there's no accurate way to predict just how much color any given region will get. But there will be some, so you might as well get out and enjoy it. And perhaps send a photo to a friend or relative in Florida!

h, those achy breaky joints.

Pain, inflammation, brittle bones, degeneration of the joints. Sound familiar? These are just a few of the symptoms associated with joint diseases such as arthritis and osteoporosis.

Achy, Breaky Joints is a community education program that will give you an opportunity to have your questions answered about osteoporosis, arthritis and other related joint diseases by orthopedic surgeons, an internist, physical therapists, an orthopedic nurse and a dietitian.

If you're concerned about your inability to do certain everyday activities or you haven't been able to exercise because of joint pain - come to this program. It just might help improve the quality of your life.

Speakers:

- Donald Serot, M.D., Orthopedic Surgeon
- · Lawrence Stein, M.D., Orthopedic Surgeon/Sports Medicine
- Judith Wuller, MD, Internest
- Don Courtial, PT, Director,
- Rehah Service
- Cathy Mitchell, PT, Physical Therapist
- Eva Winkeler, PT, Physical Therapist
- Bronnie Polk, RD, Registered Dietitian

Accidents do happen.

However you've been injured, whether it's an auto accident, an on-the-job injury, sports-related or a simple fall, your body has been joited and your spine could be missligned. When that happens, you can experience pain in any number of areas. A chirospractic examination will identify the source of your pain, and in many cases, through chiropractic treatment, unnecessary pain, even surgery, can be avoided.

If you've had an accident, and you're hurting, we'd like to help. Our patient list includes many people who have found relief through the natural, chiropractic approach to health care. Give us a call, and we'll make an appointment for your initial exam. Even though accidents do happen, it's nice to know that your pain can be alleviated.

Some people think choosing a doctor based on trust is a thing of the past.

Fortunately, history repeats itself.

If you belong to a health plan, we believe Heartland will change the way

Heartland Healthcare is a group of community physicians with one foot in the future of health care and the other firmly grounded in the values of the past Values ... Collinsville and Granite City you have: based solely on the quality of your care. The very foundation of medicine. You'll feel a unique sense of

trust and caring from the moment you walk through our doors.

Because we try, in every way, HEARTLAND to make coming to the doctor a

little simpler, a little easier, and a lot more comfortable. Even our waiting rooms feel less like doctors offices and more like home. And with 11 primary care physicians and access to various specialists located in Edwardsville choice of doctors who all share the Heartland values.

The next time you choose a primary care doctor, return to the roots of health care Come to the physicians of Heartland.

Skeptics notwithstanding, First-Class Mail is on time 87% of the time.

As part of our ongoing effort to serve you better, we asked Price Waterhouse, an independent research service, to find out how good we are at delivering local First-Class Mail on time. It turns out

that we're doing better than ever.

Not only was our national average up four points from last year, to 87%, but we hit 90% for the first time in a major city, San Francisco, and hit a heady 94% in Wichita, Kansas.

We also did significantly better in Baltimore (up 15 points to 81%), New York (up 14 points to 83%), Miami (up 13 points to 85%), Philadelphia (up 13 points to 83%) and Chicago (up 11 points to 82%). Altogether, things are improving in 85 of the 95 cities measured. And while the survey gives us something to boast about, it also helps us identify problem areas. We promise to UNITED STATES

\$2,000 aren't tax deductible.

Here's how an IRA works: The taxpayer deposits \$2,000 into the account. That contribution is not the account. That contribution is the account. That contribution is nowering his overall tax burden. The deposit, meanwhile, grows tax free; taxes are only paid after retirement, when funds are withdrawn from the account.

IRAs attracted meanly \$50 billion. The same year, Congress, in its infinite wisdom, sharply curtailed eligibility, thus reducing the program's popularity. Impact: Annual IRAs contributions each year of the popularity impact: Annual IRA contributions each year of allow.

An expanded IRA program is "probably insufficient to reverse the decline in the saving rate," McCarthy and Pham say.

Micro Raves

Gelatin snacks and desserts make a cool move with help from a microwave oven.

Lively Taste

Fat-laden gravy and sauces used to be the toppings of choice for meats and vegetables. Today's lighter eating calls for lightweight broths with filling flavor. Evaporated skim milk and fat-free canned broth with plenty of herbs is one recourse. A splash of dry wine, sherry or marsala wine perks up flavor. Roasted or freeh garlic can do magic. A list the sweetness — from apple juice, candied ginger or grated citrus peel — can yield a flavor surprise as well.

Medicine Chest

Correct use of asthma medicine can bring more comfortable, efficient results.

Fresh Picks

Fresh vegetables perk up last night's leftovers. In a bowl-combine cooked corn, peas, green beans or other vegetable with sliced tomato, grated carrot and aliced green onton. Toss lightly with low-fat or nonfat salad dressing. For a new flavor, combine two salad dressings, such as cresmy ranch with thousand island or Italian.

Big Fat Tip

Many people automatically assume chicken is the lowest fat choice on any menu. Yet not all chicken is really low fat. One big influence is the skin, which adds about 5 prems fet to each half-breast and about 8 grams fat to each leg. Light or dark mest also makes a difference. A leg has more than twice the fat of an equal amount of breast meat. Wings contain more than six times the fat in the same amount of breast meat. If a person is concerned about fat, but still loves to eat dark meat, he can limit portions, cook without adding fat and remove the skin before cooking.

Katie now is a freshman at Northwest Missouri State College in Maryville. Like other years, she will be home with her family Sunday to work at and walk in the Juvenile Diabetes Foundation's Walk for the Cure in Forest Park. Katie was diagnosed with diabetes after exhibiting classic signs. She dropped lots of weight. She was always tired. She needed glasses. She was often thirsty, Still, she recently had acquired an orthodontic structure in her mouth, so the cause was not easy to pinpoint.

Luckily, the doctors identified it before she became a medical emergency. "It was Friday, Nov. 13," her

Looking for instant flavor, Suburban Journal tasters this week tested Bi-Rite chicken-flavored instant bouillon from Shop 'n Save. It also is available in beef flavor.
